

University of Illinois
Urbana, Illinois

COLLEGES OF AGRICULTURE AND ENGINEERING
Department of Agricultural Engineering

February 14, 1968

TO: Agricultural Engineering Alumni and Friends

FROM: F.B. Lanham, Head, on Behalf of the Students and Staff of the
Agricultural Engineering Department, University of Illinois,
Urbana

SUBJECT: Engineering Open House, March 8 and 9, from Noon Friday Through
3 p.m. Saturday

In conjunction with a campus-wide celebration of the University Centennial, the College of Engineering is having its annual Open House on March 8 and 9. The Department of Agricultural Engineering will again be participating in this event, one that always presents many exciting exhibits and demonstrations.

Attention will be focused on careers that apply engineering principles and technology to agriculture, in the hope of acquainting high school and junior college students with the agricultural engineering profession and its expanding need for qualified persons.

We want to issue this invitation for you to attend, and we hope that you will urge all qualified students you know to come. Perhaps you might want to bring them and visit the Department of Agricultural Engineering together. We would be happy to have you do so.

University of Illinois students have created the exhibits and will explain their functions and the application of engineering principles involved, as well as answer questions concerning the exhibits and campus life. Faculty advisors will also be present to answer questions about entrance requirements, the program of study, etc. The location of the Agricultural Engineering Building is indicated on the campus map shown on the reverse side of this sheet.

We hope that you will be able to help us by encouraging students with an interest in agricultural engineering to attend this event. We also invite you to visit the campus yourself and bring some students with you. We'll be looking forward to seeing you at the Engineering Open House, March 8 and 9, on the University of Illinois campus in Urbana.

COLLEGES OF AGRICULTURE AND ENGINEERING
Department of Agricultural Engineering

February 14, 1968

TO: High School Principals, County Extension Advisers, and Junior
College Administrators

FROM: F.B. Lanham, Head, on Behalf of the Students and Staff of the
Department of Agricultural Engineering, University of Illinois,
Urbana

SUBJECT: Engineering Open House, March 8 and 9, from Noon Friday Through
3 p.m. Saturday

In conjunction with a campus-wide celebration of the University Centennial, the College of Engineering is having its annual Open House on March 8 and 9. The Department of Agricultural Engineering will again be participating in this event, one that always presents many exciting exhibits and demonstrations.

Attention will be focused on careers that apply engineering principles and technology to agriculture, in the hope of acquainting high school and junior college students with the agricultural engineering profession and its expanding need for qualified persons. We find that there are about ten good job opportunities for each of our graduates.

University of Illinois students have created the exhibits and will explain their functions and the applications of engineering principles involved, as well as answer questions concerning the exhibits and campus life. Faculty advisors will also be present to answer questions about entrance requirements, the program of study, etc. The location of the Agricultural Engineering Building is indicated on the campus map shown on the reverse side of this sheet.

We hope that you will inform all interested students about this important event. We also invite you to visit the campus yourself and bring some students with you. We'll be looking forward to seeing you at the Engineering Open House, March 8 and 9, on the University of Illinois campus in Urbana.
